OFFER SURGICAL MASKS

CHARACTERISTICS:

Material: TNT Spunbond, specific to the production of disposable protective masks (surgical). The protective mask has 2 layers of 100% polypropylene and a filter layer of viscose and polyester, which gives it very good qualities both in maintenance and wear (according to SR EN 14683 + AC: 2019).

Color: blue

ACCREDITATION:

The masks produced by our company are accredited by the Ministry of National Defense within the Center for Scientific Research for Defense and Ecology, according to the basic standard "SR EN 14683 + AC: 2019 - Facial masks for medical use". Accreditation no. A2191 from 02.05.2020.

Our products obtained at the BFE (Bacterial Filtration Efficiency) test the value > 99% for particles with an average size of 2 μ m. The value obtained is above the requirements of the specialized standard (98%) and equivalent to the degree of protection of non-surgical masks of FFP3 grade.

The masks are TYPE II and are intended for medical purposes. They can be used by both patients and medical staff.

PRICE:

Quantity	Price
1 – 1.000 pcs.	3 RON
1.000 – 5.000 pcs.	2.8 RON
> 5.000 pcs.	2.6 RON

* Prices do not include VAT.

Mask technical specification - EMEROM

1. Product use

The product aims to provide protection during medical procedures against the transfer of microorganisms, bacteria and particles.

2. Product specifications

Product code	EM-01
Product name	EMEROM - Disposable surgical mask
Product description	Disposable surgical mask - 3 layers / 3 folds with elastic
Product class	Medical device (conform 93/42/EEC, CE clasa 1)
Applicable standard	SR EN 14683+AC:2019
Number of folds	3
Color	Blue

3. Product dimensions

Mask length	175 mm 0/-5 mm
Folded mask width	95 mm 0/- 5 mm
Unfolded mask width	160 mm +/- 10 mm
Elastic band length	185 mm +/- 10 mm
Neck strap length	110 mm +/- 10 mm
Fastening bandwidth	2 mm +/- 1 mm

4. Product material

Types of material	Role	Composition	Characteristics	Color
Textile material - spunbond nonwoven	Outer layer	100% polypropylene	20 g/mp	blue
Textile material - meltblown nonwoven	Filter layer	Viscose & polyester	35 g/mp	white
Textile material - spunbond nonwoven	Comfort layer	100% polypropylene	20 g/mp	white
Textile material - elastic cord	Mask fixing	Polyester & rubber filament	/	white
Fastening tape	Mask fixing	Aluminum & polymer	/	white

5. Technical characteristics of the product, for information purposes

<i>Technical characteristics according to SR EN 14683+AC:2019 - Tip II</i>			
Characteristics	Reference standard	Unit	Accepted limits
Bacterial filtration efficiency	SR EN 14683+AC:2019	[%]	≥98
Respiratory permeability	SR EN 14683+AC:2019	[Pa/cm ²]	<29.4
Microbial loading	EN ISO 11737-1:2018	[cfu/g]	≤30

6. Additional Information

Storage recommendations	Protect yourself from sunlight, moisture and dust
Treatments applied to the product	Unsterile
Recommendations for using the product	Disposable
Does not contain	Fiber glass
Shelf life	5 years from the date of production
